

**2018 Journeyman
Recloser Change Out
Mean Time: 12 Minutes
Drop Dead: 16 Minutes**

This is an energized event. The event consists of changing out one recloser. All three reclosers will need to be by-passed with an extendo stick. The team will bypass the reclosures. The hot line clamps will be removed (line and load side) with a shotgun stick. The bracket with the versa-tech will be lowered to the ground and hoisted back up the pole. Then with a shotgun stick, attach the hotline clamps to load and line side. The reclosers will be energized with an extendo stick.

Time starts at the judge's signal, after the five-minute set up time.

The will sound the pole.

Hardhat, safety glasses and rubber gloves are required. Cover up is available for the task.

Journeyman team will bypass reclosers. The hotline clamps will be removed on the line side and the load side.

The versa-techs can will be lowered to the ground and then raised back into place.

The hot line clamps will be installed to the line and load with a shotgun stick.

The groundmen will energize the recloser. Time stops when the last bypass is open. The tools and equipment must be on tarp.
